Education

Maharaja Agrasen Institute of Technology

B.Tech, Electrical and Electronics Engineering; CGPA: 8.2

- Certifications: Product Management (IBM, Coursera); BCG Strategy Consulting Simulation

Nov 2022 – Jul 2026

New Delhi, India

Experience

NikahForever

Product Management Intern

- Owned trust & safety and Activity/matching feature specs, authoring **6 PRDs** to turn cohort-level insights into shippable requirements.
- Queried cohort data across **587K+ interests** to diagnose match-quality drop-off, uncovering a **26.32%** premium message-attach rate and a **6.8x–20.5x** accept-rate lift tied to messaged sends.
- Traced **60.83%** of accepted matches back to the Activity surface, and used this to reprioritize the roadmap toward the Matching Card redesign.
- Redesigned Activity into a 3-tab, ML-ranked architecture based on the above findings, projected to **2x** baseline accept rate pre-launch.
- Designed a post-send nudge from the same data, projected to lift reply likelihood **3x** pre-launch.

April 2026 – Present

Delhi, India

Xander-Corp

Product Strategy & GTM

- Owned product strategy and GTM for a no-code ML SaaS platform pre-launch, taking it from concept to first activated users.
- Ran user discovery and defined ICP and pricing, then used early feedback to rework the onboarding flow.
- Accepted into the **AWS Activate Founders Program**; advanced the platform to the **Eureka! IIT Bombay zonalist round**.

Nov 2025 – Feb 2026

Remote

Projects

Rang De – Co-Creation PRD for Nykaa

Product Strategy, Marketplace Design, PRD Writing

- Scoped a co-creation feature letting users mix, name, and publish custom cosmetic shades, targeting **>60%** creator repurchase and **>40%** organic share rate.
- Replaced commission payouts with a zero-cost recognition system (badges, live sales counter) to protect brand margin at scale.
- Capped the pilot at **50 creators** with 5 success metrics defined upfront, ahead of a **10x** scale-up path to **500 creators**.

Jun 2026

Spotify Jam Assist – Concept PRD

Product Strategy, Music Tech, PRD Writing

- Proposed a real-time backing track feature synced to tempo and key, aimed at keeping 2+ person jam sessions musically engaging end-to-end.
- Scoped an MVP around a selectable instrument/accompaniment layer, framed as a retention lever for Spotify's live/social listening surface.

Jun 2026

FinToolekt – Intelligent Automation for Audit Workflows

Python, ML, Anomaly Detection

- Translated auditor needs into ML product features for audit automation, balancing detection accuracy with usability for non-technical users.
- Defined explainability requirements alongside detection accuracy so automated flags stayed actionable for non-technical auditors.

Jun 2024

Technical Skills

Product & Strategy: Product Discovery, User Research, Cohort/Funnel Analysis, Roadmapping, PRD Writing, MVP Definition, GTM Strategy, Stakeholder Management

Data & Analytics: SQL, CleverTap, A/B Testing, Excel

AI / ML (Working Knowledge): Python, LLM Fundamentals, ML Pipelines

Tools: Notion, Jira, Figma

Achievements

Top 600 / 25,000 teams at Eureka! IIT Bombay E-Cell (2024) **Winner** at Empowher Hackathon (2023) **3rd Place** at ML Code Crunch (2024)

Leadership & Community

Core Member, ATOM Robotics Lab – autonomous systems research, mentoring junior members, technical workshops

Member, Refine Consulting Club – strategy simulations and case competitions
